### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

#### **In the Claims**

In claim 9: line 3, "an" has been replaced with – said – to reflect the change made on line 12 of claim 1.

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: Two independent claims, namely claims 1 and 10, are among the remaining 16 claims presented, in which the independent claim 1 appears to be broader than claim 10. The reason for allowance is therefore based only on claim 1. The analysis of claim 1 vis-à-vis the art of record has paved the way for a conclusion that the present invention distinguishes over the art of record in that the latter fails to teach or fairly suggest the elemental combination of the features claimed in claim 1, in which, as main feature, a rotation of a gear/helicoid ring which includes an annular rib is generated by rotation of a driving pinion which engages with teeth of a spur gear formed on each thread of male helicoid formed on the annular rib, and through engagement between male and female helicoids of the annular rib and of a stationary barrel, respectively, resulting in a movement of a lens group along an optical axis.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
